Why UK govt. is the fucking worst:

1-Hyperexpensive real state, enormous unfair taxes to the medium earners - forced poverty
2-Almost forced C19 jabccination
3-Already got 5M Bird flu vaccines
4-No Free Speech:
getting pedos out of jail to jail you for speaking up truths

5-Farmers unfair taxing
6-Uncontrolled immigration
7-Keir Starmer (and the multiple other PMs in <4 yrs):
A WEF bitch married with an Israeli asset
8-Stupid War-Singlehandedly with Macron leading all of West Europe to war with Russia by providing

constant support in a totally unnecessary war with Storm Shadows and nonstop rhetoric
9-Multiple unexplained UAPs around American military bases
10-Massive mysterious fog reports

And some extras:

I-The Royal House: Epstein-Saville links
II-The weather
III-British arrogance, mannerisms and prides
IV-Dirty streets, lots of fat unhealthy people, and mentally ill pro-DEI folks

It's only going to get worse, and you know it. Get out of there asap.
